

## Steps

### Create Enterprise Application based on template “CheckPoint Remote Access VPN”

Home > Enterprise applications | All applications >

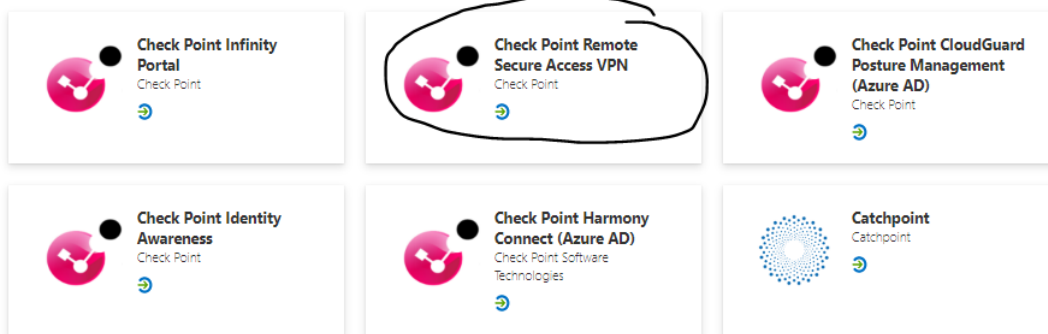

#### Browse Azure AD Gallery ...

+ Create your own application | Got feedback?

The Azure AD App Gallery is a catalog of thousands of apps that make it easy to deploy and configure single sign-on (SSO) and automated user provisioning. When deploying, leverage prebuilt templates to connect your users more securely to their apps. Browse or create your own application here. If you are wanting to publish an application you have in the gallery for other organizations to discover and use, you can file a request using the process described in [this article](#).

Search: Check Point  
Single Sign-on: SAML | User Account Management: All | Categories: All  
Federated SSO | Provisioning

Showing 9 of 9 results

- 1) Assign group “xxx” with users
- 2) Set up single sign on
  - a. Identifier (Entity ID) (copy from new Identity Provider)
  - b. Reply URL (copy from new Identity Provider)
- 3) Download “Federation Metadata XML”
- 4) Upload “Federation Metadata XML” in new identity provider
- 5) Click OK and result is two errors
