

Harmony Endpoint Posture Management

Automatic Vulnerability Detection & Patching

Enhancing endpoint protection by preventing vulnerability exploits

Endpoint posture management is a critical component of endpoint security. It helps organizations identify vulnerabilities and potential threats to their endpoints, and ensure a consistent security posture across all endpoints.

Harmony Endpoint's posture management capability, provides automated vulnerability detection, prioritization and patching to reduce the risk of a data breach or other security incident and protect your organization's digital assets.

These advanced capabilities are achieved by integrating Ivanti Neurons, an automation vulnerability-patching platform, into Check Point's Harmony Endpoint Protection

Visibility

Scans all your endpoints automatically with small to no impact on performance

Risk Assessment

Provides full visibility to all devices' status & risk scores, all in one dashboard

Patch Management

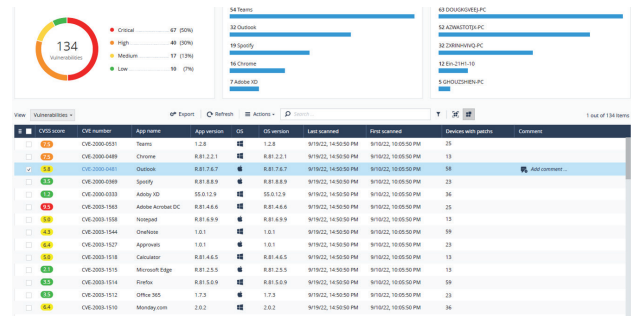

Automatically patches vulnerabilities. Activates security policies to ensure secured work routine

Powered by **ivanti**

How does it work?

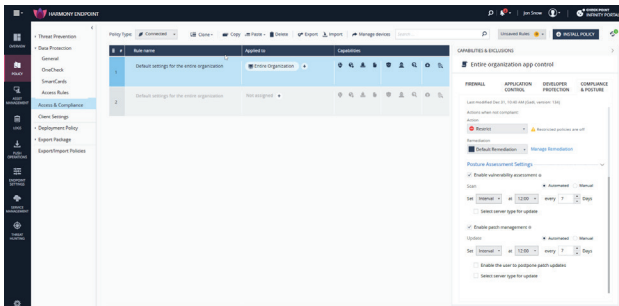

View all endpoint vulnerabilities within your organization

- Set an automatic scan
- Sort by vulnerability or device
- Generate customized reports

Assess the risk and prioritize remediation

- Sort by risk score
- Focus on the most critical vulnerabilities
- Identify the most vulnerable applications and machines

Use policy to automate the patching process

- Define policy for devices containing vulnerabilities
- Set automatic patching

Optimize endpoint posture management

Scan and get visibility to view, prioritize and assess vulnerabilities risk automatically patch all vulnerabilities.

Part of Harmony Endpoint's comprehensive security

Deploy a single Harmony endpoint agent for patch management, threat prevention, EDR, web protection, DLP, and threat hunting. Prevent known & Zero-Day attacks across all of your organization's endpoints. Learn more about Harmony Endpoint Posture Management [sign up for a free demo.](#)
