A promotional image for Avatar 2.0. The scene is set in a lush, fantastical world with floating islands. In the center, a Na'vi is riding a large, green, bat-like flying creature. The sun is low on the horizon, creating a warm, golden glow. The background shows more floating islands with waterfalls and dense vegetation. The text "ENTER THE WORLD" is centered below the flying creature.

They're not gonna give up though. They're not gonna make a deal.
It's for what? For a special? Blue print?
There's nothing that we have that they want.
Something they sent me out here to do is a waste of time.
